

## **Creationist Dr. McMurtry on Man's Triune Nature**

See: [http://www.creationworldview.org/articles\\_view.asp?id=30](http://www.creationworldview.org/articles_view.asp?id=30)

### **Man reflects His Creator's being by having a triune nature.**

Man exists by having a spirit, soul and body. Our spirit provides us with God awareness. (There is no such thing as a true atheist in the Christian Biblical Worldview. Read Romans 1:16-32. Every human being has a spirit and, therefore, every human being knows that there is a God.)

Our soul provides us with self awareness. The soul is comprised of the intellect, emotions and will; what we think, what we feel and how we tell our bodies to move around.

Our body gives us awareness by others and allows us to function physically in a physical universe. Our bodies allow us to operate within a three dimensional physical universe.
